

LS501 Manually Levelled Rotating Laser

Get more advanced features for your money, with the reliable LS501 Laser. This multi-function viable laser level is ideal for all interior and exterior applications.

This versatile laser provides all of the general functions of a rotating laser, but because it is manually leveled, it provides an economical option for the general builder and tradesman. Variable speed, plumb up beam, plumb down beam, scanning and scan indexing, vertical alignment are all standard features of this fully optioned unit.

One operator can survey a site in a single set up, saving valuable time, reducing costs and increasing productivity.

The LS501 delivers all this where you want it, when you want it.

KIT INCLUDES

- LS501 Laser
- LS705 Detector
- LS308 Mount
- LS310-2 Adaptor
- Padded Carry Case

features

- Projects a horizontal rotating laser plane with a plumb beam up and plumb beam down

- Laser detector and bracket included
- Optional remote control
- Extra battery pack included

specifications

Precision	" +/- -3mm /30m
Operation Range	
- with detector	200m Ø
- laserpoint	approx 30m
- scanning	approx 20m
- rotating	approx 10m (depending on room illumination)
Remote Control Range	50m
Working Temperature	" -10°C to +45°C
Laser Diode	Class II 635nm
Power	NiMh Rechargeable Batteries
Low Power Indication	Flashing power lamp
Battery Life	8 hours
Laser Dimensions	165mm x 120mm x 180mm
Kit Weight	3.5kg
Carry Case Dimensions	390mm x 300mm x 150mm
Warranty	One Year
