LS502 Manually Levelled Rotating Laser

Paying less doesn't always mean you get less. Acquire the versatility of a professional laser tool in a smaller, affordable go anywhere package.

The fully featured LS502 tackles most leveling tasks with precision and ease. Can be used indoors or outdoors with one person operation. The 502 maintains all of the easy to use features of the LS501 including, laser rotation, plumb beam to zenith, scan and indexing functions, but it can also project a static vertical laser line.

A manually set grade (4%) can also be set in the laser for short run drain laying, sewer installation and water runoff.

Ideal for general building, carpentry, floor or wall tile installation, verandah or deck construction, foundations, landscaping, shed erection, drainage and more. This feature packed unit does it all.

KIT INCLUDES

LS502 Laser
LS705 Detector
Hard Padded Carry Case
