

## features

- LS603-1 projects one laser cross (horizontal & vertical line)
- LS603-2 projects one laser cross with an additional squared vertical line
- Fast self leveling
- Laser flashes and alarm sounds when out of leveling range
- Wall mount / tripod mount supplied
- Laser pendulum locking when not in use to protect the compensator from damage during transport
- Easy calibration
- Low battery indicator
- One year warranty

## specifications

Precision	" +/- 2mm / 20m
Self Leveling Range	" +/- 3.5°
Operation Range	20m Ø (light condition dependent)
Working Temperature	" -10°C to +45°C
Laser Diode	Class II 635nm
Power	3 x AA Alkaline Batteries
Low Power Indication	Flashing power lamp
Battery Life	16 hours
Laser Dimensions	85mm x 135mm
Kit Weight	1.25kg
Carry Case	Padded
Warranty	One Year

## optional accessories

### LS330 Laser Pole

The laser pole is an ideal mounting platform for your cross lasers or dot lasers when a tripod is not large enough to reach your set datum height.

The laser pole mounts between the floor and ceiling and screws together in five sections with an adjustable elevating instrument platform.

Maximum height 3.4 metres.

## LS603-1 & LS603-2 Self Leveling Cross Line Laser

This versatile laser uses two visible laser diodes to project a horizontal and vertical laser reference line in a cross pattern.

The lasers have a gravity design pendulum system which self levels instantly and automatically. No leveling bubbles are required, just turn it on and go to work.

With its easy operation, this versatile tool provides greater efficiency and accuracy to all interior setout jobs. Ideal for tilers, carpenters, general builders or anywhere where an accurate horizontal, vertical and square reference is needed.

### KIT INCLUDES

- LS603-1 / LS603-2 Laser with wall mount
- LS306 Laser Glasses
- LS307-2 Magnetic Target
- Padded Carry Case
