

LS163 SQUARE LASER RULER

This laser set out tool projects two bright laser chalk lines which are located at 90° to each other. A graduated scale allows the laser lines to be moved to any position in a 90° arc.

This tool is ideal for squaring walls, laying floor tiles or anywhere where a right angle reference is needed.

LS611 SELF LEVELING LASER POINTER

The LS611 is an inexpensive and pocket size self leveling laser pointer which projects an accurate laser dot for all your alignment and leveling jobs.

Because the laser is self leveling, no leveling bubbles or set up needed. Simply put it down, turn it on and go to work. It's that easy.

The LS611 offers a distinct advantage over regular carpenter's levels in its ability to project a highly visible level reference over short and long distances with accuracy.

Team the laser with an LS301 flat connector to enable use with a tripod or the LS330 Laser Pole.

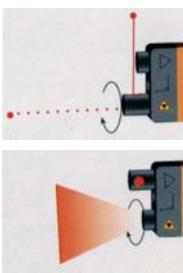

LS164 TORPEDO LASER

The LS164 Torpedo Laser is a highly durable, lightweight aluminium level with a red beam laser that can be used in a variety of applications. This state of the art level, projects a highly visible red dot on almost any surface.

This versatile laser also projects a horizontal laser line which can also be switched 90° to be projected as a vertical line. The level can be placed in a central location to transfer a level or line reference point anywhere you need it.

Its pocket size, economical price and easy operation make it an ideal layout tool for all workmen and trades. Useful when installing tiles, cabinets, kitchens or even leveling posts.

SPECIFICATIONS

Precision	" +/- 2mm / 10m
Working Range	approx 10m (depending on room illumination)
Working Temperature	"0°C to +40°C
Laser Diode	Class II 635nm
Power	2 x AA Alkaline Batteries
Battery Life	48 hours
Carry Case	Padded
Warranty	6 Months

SPECIFICATIONS

Precision	" +/- 3mm / 10m
Working Range	approx 30m (depending on room illumination)
Working Temperature	"0°C to +45°C
Laser Diode	Class II 635nm
Power	2 x AA Alkaline Batteries
Battery Life	30 hours
Carry Case	Padded
Warranty	6 Months

FEATURES

Switchable laser point or laser line
Laser line can be projected as a vertical line or a horizontal line
45°, 90° and 180° level vials
Magnetic Base
Thread for camera tripod mounting
